Local Perspective

- Genesee County, NY located between Buffalo and Rochester in Western New York State
 - 260 Centerline Miles
 - Agriculture is No.1 Industry
 - Snow Belt Area from Great Lakes (+100 inches/yr)
 - Population 60,000
 - Predominately Rural Population

Local Perspective

- Annual Capital Improvement Fund = \$1.4M
 - NY State Funded
 - Local Funded Projects via Sales Tax Aid (<\$500K)
- Annual County Road Budget = \$3.8M
 - Snow and Ice Removal = \$1.5M
 - Admin, Traffic Control & Engr = \$700K
 - Road and Bridge Maintenance = \$1.6M
 - 24 Employees

Local Perspective

- Local Preventative Maintenance Efforts
 - Cracksealing
 - Chipseal
 - True & Level
 - Micropaving
 - NOVAChip
 - Thin Overlays

Local Perspective

- Challenges to Preventative Maintenance
 - Budget and Inflation
 - Both Capital and PM Funding at 1998 Levels
 - Material Price Escalation (+200% since 2005)
 - Quality Control
 - Asphalt
 - Use of Polymer Additives
 - Public Expectations and Inconvenience

Local Perspective

- Challenges to Preventative Maintenance
 - Life Cycle
 - Average Treatment Adds 5 yrs
 - 260 miles/5 yrs = 52 miles/year to Maintain
 - Movement Away from Chipseals to Micropaving and Thin Overlays
 - Deferred Maintenance Reduces Options
 - \$1 saved current = up to in \$4 future cost
